7 HABITS · HABIT 2 — BEGIN WITH THE END IN MIND

My Mission Statement

Alex Martínez Cobo

My mission is to be a kind and respected person and to run my own businesses.

WHO I WANT TO BE

Someone people enjoy being around and respect for the way I treat them and the way I work.

WHAT I WANT TO ACHIEVE

To build my own businesses and live from them, while looking after my health and my energy.

THE VALUES THAT GUIDE ME

Responsibility

I own my decisions and their results, without blaming others.

Consistency

I do the work every day, even when I don't feel like it.

Patience

Big goals take time, so I keep going when results are slow.

PROOF THAT I CAN DO IT

I didn't like my physique, so I started training. By sticking with it I improved my body and learned how nutrition and the human body work. I want to build my businesses the same way: one step at a time.
